The Philippines are falling back
like the American Indians their mode
of war farces bushwhacking.

There is only one legitimate city
ticket in the lead in this city. All the
other tickets are Democratic tickets
to begin.

Frank D. Roberts has been elected a
member of the legislature from
Pemiscot county to fill the vacancy
caused by the death of John T.
Avond.

The Washington Post says the seat
in capacity of the Senate chamber is
so cramped that Senator Foraker will
have to sit with the Democrats. That's
all right; he will never be mistaken
for a Democrat.

A few years ago Democrats said in
plate would not be made up this country
and now every day comes the news
of added and greater of the forces
in the big mills of the country.

Father P. Flynn, we understand,
is about to close his newspaper
proprietorship in a city. Father Flynn,
through the influence of the editor of the
Democrat, has secured a good
job as editor of a writer on a new
newspaper in St. Louis where he
is to be a great success.

The phenominal character of the
cold wave of February is shown by
the fact that the cold does not leave the
interior of the house interfered with
for the first time since snows appeared.
Never since the Mississippi valley
settlements have gone so far South as
it did last month.

According to the Washington cor-
respondent of the New York Tribune,
Senator Vest, of Missouri, an active
anti-expansionist, says it is all con-
sensus to talk about the fight against
expansion having just begun that we
have expanded in spite of ourselves,
and shall remain expanded in spite of
Hades."

Assurance is given in a Wash-
ington dispatch that 20,000 Krug-Jorgenson
rifles have been sent out to Gen-
tels and that all of the reinforcing
troops are armed with the high power
weapon. It is further explained that
the volunteers will be no longer at the
disadvantage of being shot by sav-
ages armed with Mausers and lying be-
yond the range of the Springfield.

The mortality and wound caused by
the sharpshooter firing from the Hill-
pino lines could have been prevented
if our western volunteers had been
properly armed. Every man com-
pelled to face Mausers with the old
Springfield rifle took risks that were
entirely unnecessary. Stung by their
inability to defend themselves with
these "archaic weapons," our volun-
teers at Manila have marched to find
the enemy in the jungle and engage
him at close quarters, that is within
the Springfield's range. Hale's bri-
gade made such a sortie a few days
ago, but when it retired the enemy's
sharpshooters resumed their old posi-
tions just out of range and began to
fire again with Mausers.

It was nine years ago that President
Harrison appointed a commission to
investigate the project for an interna-
tional railroad from the United
States to some point in the Argentine
Republic. The commission has just
completed its labors. The project is
pronounced feasible, and the cost of
the line, ready for the rails, is figured
at \$175,000,000. The road will be built
some time in the future, but it will not
be very soon.
